BRUSH CREEK IS RUNNING MILL ON GOOD ROCK

Mining operations at the Brush Creek are progressing very favorably reports Persident Ben F. Ballard of the Kate Hardy company which is opening up the property. The ten stamp mill is running one shift on excellent ore. Due to the cold snap the mill has been held to one shift due to the water freezing.

Two shifts are engaged in stopping the ore and running raises. There is sufficient tonnage already blocked out to keep the mill running continuously for some time. It is expected to sink the shaft several hundred feet deeper at an early date and open up the shoot at lower levels.

The Brush Creek is equipped with electric power and with the strike of high grade ore made last year makes it probable that a large producer of the precious metal will be developed.

President Ballard spent several days in Nevada City this week on company business.

STRIKE JEWELRY BOCK AT IDAHO MARYLAND

A strike of jewelry rock is reported on the 1900 level in the Idaho Maryland mine the past week. It was picked up about 800 feet from where the strike was first encountered last year.

BUILDING AND LOAN HAS GOOD MEETING

The meeting of the board of diretors of the Nevada County Building and Loan Association held Wednesday was attended by the full membership of the board. Several local contract are already being handled by the association and a number of calls for loans are now being made which the company expects to put through as fast as the loan committee can investigate and pass on them.

The report made by Manager W. A. Doctor was an optimistic one and showed the affairs of the association to be in a highly satisfactory condition. The association can play a very important part in the prospective building revival expected to materialize here this spring and the company has shown a ready disposition to encourage the building of new homes in every way. With its easy repayment over ten years of loans makes it possible to finance the building of a home as cheap as rent in the payments.

IDA MAE JERRETT, D. D.G. M. TO VISIT EVANGELINE CHAPTER

Ida Mae Jerrett, District Deputy Grand Matron of Georgetown, will pay her official visit tomorrow Tuesday night, to Evangeline Chapter, O. E. S. Mrs. Edith Davies, Matron of Evangeline Chapter will be present to welcome the visitor. Mrs. W. V. Tamblyn is chairman of the committee on arrangements.

Mrs. Margarte Lambert, county treasurer of Sierra county, accompanied by her two daughters was down from Downieville Saturday. Evan Thomas drove them down.

BORN—At the Nevada City Sanitrium, Nevada City, Calif., February 13, 1929, to Mr. and Mrs. Albert Williams, a daughter.

Henry Damon was down from North Bloomfield Friday on business, and took occasion while in town to subscribe for The Nugget He said he was glad to see a paper that was working so hard for mining and he wanted to do his bit to keep things moving.

Mrs. Lawrence Kaarsberg has returnd to her home in Vallejo after visiting here with her sister, Mrs. Frank Gunther, for several days.

COUNTY ASSESSORS ARE IN SESSION TODAY HERE

An interesting convention being held today is that of the Northern Counties Assessors Asociation which is meeting in the court room at the court house. It is prsided over by B. C. Erwin, president of the asociation and assessor of Sacramento County. B. F. Hilhouse of Woodland assessor of Yolo County is secretary.

Past President Henry C. Schroeder is entertaining the company at a luncheon at the National Hotel this noon.

The following comprise the delegates at the meeting: B. C. Erwin, Assessor Sacramento County; C. E. McQuaid, Assessor Sutter County; A. E. Morton, Assessor Butte County, S. Guy Lukens, Assessor Placer County; Louis L. Garrecht, Assessor Shasta County; H. E. Hurlbutt, Assessor Humboldt County; Ernest Eibe, Assessor Glenn County; Louis J. Kennedy, Assessor Alameda County; B. F. Hillhouse Assessor Yolo County; John Davis, Assessor Modoc County; W. K. McFarland, Assessor Amador County; E. L. Scott Assessor El Dorado County; Henry C. Schroeder, Assessor Nevada County; J. P. Dyer, Assessor Tehama County; Charles Wemple, Assessor Lasen County; Mrs. J. P. Dyer, Red Bluff; Mrs. C. E. McQuaid and Mrs. Myrtle Newcomb, Deputy from Sutter County; Mrs. Louis L. Garrecht. Deputy, Redding; W. R. Grace and J. E. Byrne, Deputies, Oroville; Claude Williams, Deputy, Chico; R. M. Armstrong, Tax Agent P. G. & E., San Francisco; Theo Mohr, San Francisco; Mayme Veet, Deputy, Auburn; Bernice M. Clemo, John M. Hammill, Deputies, Grass Valley; Mrs. J. M. Hammill, Grass Valley; Mr. and Mrs. E. H. Smith, Colusa; Dixwell L. Pierce, Secretary State Board of Equalization, Sacramento; R. E. Collins, Chairman State Board of Equalization, Redding; James Masterson, Willows; Fred E. Stewart, State Board of Equalization. Oakland; Chris Meiss, Deputy, Jackson; J. A. Langhton, Treasurer Amador County, Jackson; Frank Hull, Placerville.

CARLISLE GROUP IS TAKEN ROYAL INTERESTS

The Carlisle group of mines, eight miles from Cisco, consisting of 15 claims, has been taken over by the Royal Development Company according to President H. E. White. The property has been examined and passed on by a number of well known engineers. It is opened by three tunnels and 4,000 fet of development work, disclosing 553,000 tons of ore. In places thi sore runs as high as $66 a ton in gold. Ore already in sight is declared to be worth several millions of dollars.

The reports show that the property is cut by seven veins, vearying in width from seven to 40 feet. One vein that runs through the property for 4,400 has shown assay values around $14 a ton for its entire distance. At one point there are several thousands of tons of ore running $40 that can be shipped.

By extending the No. 3 tunnel an additional 750 feet it is declared that 2,100 feet of backs can be secured. From this point a drift can be run along th evein for 1,700 feet in one direction and for 1,500 feet in the opposite direction, with average backs of 1,400 feet.

The property was last worked by L. A. Cross. It is the intention to start work at once and ore will be mined for shipment. Later a 100-ton concentrator will be installed.

D. W. Shanks, mining man of San Francisco, stopped over here while on his way to the Indian Hill mine in which he is interested.

District Attorney W. E. Wright was an official visitor in Truckee during the week.

Mr. and Mrs. William H. Davies visited in Marysville Sunday.

Mrs. Ethel Wilson of Burlingame visited her father, Walter Bond, for a few days and attended the funeral of the late Mrs. Hooper.

RICH GRAVEL CHANNEL IS STRUCK BY NEOCENE COMPANY AT CEMENT HILL APPEARS AS EXTENSION OF FAMOUS MANZANITA CHANNEL EARLY DAYS

Channel Sixteen Feet Thick Showing Fine Values Is Now Being Opened Up

One of the biggest strikes made in auriferous gravel in this section for a number of years has been the picking up the past few days of what appears to be the extension of the old Manzanita channel which in the heyday of its early career produced seven to eight million dollars. Neocene Gold, Inc., which controls nearly two miles of territory along the north side of Cement Hill just north of town, has opened up a vast deposit of white pay gravel which already shows a thickness of sixteen feet above bedrock. A bed of blue gravel is also coming in in some of the workings. Washing of the gravel in sluice boxes has been started.

Last September C. W. Manker of Southern California was looking for a likely deposit to work and prospected the ground along Cement Hill Soon after he bonded the Elwell Goering property and started work there. Passing up the former workings he sank an incline 26 feet and started a drift into the hill to tap the gravel channel thought to exist there. Installation of a sump and an ejector soon cleared up the water which had interfered with previous operations and made it possible to make rapid progress with drifting. Several crosscuts are now being run to determine the extent of the channel which shows excellent values throughout. One of these is already 65 feet into the channel. All four breasts are in gravel, three of which show excellent values. The gravel is mostly free except several inches next to the bedrock which is closely cemented. Rapid progress is being made in the drifting, three to four sets a day going in on the two shifts being run.

Ninety feet of sluices have been built and put in use and 140 feet more are nearly ready for use. Woven wire is used in the first few feet of sluice ahead of the riffles. The second set of sluice boxes are being placed below a large sump or settling tank. A large pond to impound the tailings is available. While most of the gravel so far has been free, a great deal of value is found in the cemented area next to the bedrock and a ball mill has been ordered to handle this. The mill site has been laid out and the mill is expected to be installed shortly. It is of a type new to this district and its operation will be

Thirty Five Cars a Day Now Going Into Sluice Boxes Deposit Is Promising

watched with a great deal of interest.

Lindgren in one of his reports on this district maintained that the old Manzanita channel crossed over to the north side of the ridge west from Sugar Loaf and in this case his claim appears to have been verified as the gravel being uncovered has all the characteristics of the old channel. If such is the case is has every probability, the present workings should afford large returns as the Manzanita channel was a large producer, the values running high per yard. The gravel is a clear white and is of remarkably uniform texture throughout. The Nebraska property produced three to four millions and the Oden was a heavy producer and with the past values obtained from the gravel workings in this section, Neocene has a profitable existence ahead with the large amount of pay gravel already opened up.

Two shifts employing thirteen men are steadily at work and a camp has been established on the Goering property and with further installation of equipment this force will be increased. The old workings afford excellent ventilation for the new operations. Thirty five cars of gravel a day are now being handled.

The main drift nito the hill is already cutting into blue gravel and will be pushed ahead. The white gravel channel will be systematically blocked out for stoping operations and as each block is cleared out will be permitted to cave. Sufficient gravel is already blocked to keep the sluices running steadily. Ample water supply is provided.

Southern California capital is interested in the venture which is incorporated under the laws of Nevada. C. H. Manker is president and general manager and is in active charge of operations at the property. Edward Nolan is treasurer and consulting engineer.

The publisher of The Nugget made a complete survey of the workings Friday and expressed himself as being highly enthusiastic at the large values already in sight. With 10,000 feet of the channel under control, Neocene is in an excellent position to develop a large producer this season that will make its backers excellent profits. Neocn is a closed corporation at the present time, no stock being available to the public.

JIM STEWART WRITES OF EARLY PLACER MINING DAYS

(By James D. Stewart, M. E.)

Continued from last week

State wide interest was aroused by the hydaurlic miners' efforts to throw off the shackles locked by nearly half a century of rust.

The defeat of the Cloudman bill by th scant margin of one vote in th 1926-1927 legislature was accomplished only after its opponents had resorted to any and all means to encompass its defeat.

The Commonwealth Club of California, the Pacific Coast's most powerful and influential civic organization for the discussion and impartial nvestgation of matters pertaning to the public welfare, decided that the matter was worthy of investigation.

On August 4, 1927, a few months after the adjournment of the legislature, Walter Stalder, chairman of th Mineral Resources Section of that body sent out a call to its members and those vitally interested on both sides to meet in San Francisco on August 10th, 1927.

The meeting was well attended and the matter deemed of sufficient importance to form a sub-section on Placer Mining to carry on the work. It was decided to hold luncheon meetings each two weeks in the club rooms. This meeting place was later changed to the quarters of the Engineers' Club.

The opening for the hydraulic miner wase presented by Roy H. Elliott in an able paper, on August 24. Later H. C. Cloudman, C. H. Munro, Arthur Jarman, James D. Stewart and others appeared with prepared statements in behalf of the hydraulic industry. Otto Von Geldern, F. B. Noyes and Arthur Coats appeared in opposition.

H. W. Crozir appeared on behalf of the Harbor Development Section and offered no opposition to the proposed plans. F. H. Fowler took the same stand for the Power Development Section. W. E. Colby, eminent attorney of San Francisco, went fully into the legal phases of the law both present and proposed. His paper was a masterpiece and every hydraulic miner should have a copy of it. It shows without any appeal to pasion, prejudice or sentiment just what a rotten deal the hydraulic miner has had dealt him.

To be continued

WATER USERS WILL HAVE DANCE FRENCH CORRAL

The San Juan Water Users Association will hold one of their popular dances at French Corral next Saturday night. Mr. and Mrs. E. B. Dudley will furnish the music for the occasion.

It is reported by Chairman Sam McCullough that there is probably enough water impounded in French Rservoir to take care of domestic neds on the Ridge if the pipes can be fixed up. About 40 inches of water was reaching North Columbia in th Bloddy Run ditch prior to the recent freezing weather.

YELLOW TIGER COMPANY BONDS THE ERIE PROPERTY, A PAST PRODUCER

A bond on the famous Erie property near Graniteville has been taken the past week by the Yellow Tiger Consolidated interests operating the Ancho property. This is confirmation of the exclusive story carried in this paper in its last issue reporting the pending transfer. This means further extensive operations on the Gaston Ridge as soon as the power situation has been clarified. The Ancho property which embraces 100 acres of patented ground will have 320 acres additional with the Erie.

The Erie which is credited with a past production of a half million has not been worked for some years due to inability of the operator to solve a faulting problem. The Yellow Tiger interests propose to extend the Ancho drifts into the Erie ground at an early date and being at a much lower elevation expect to cut into some valuable ore as the Erie has great promise for large production of high grade ore. The Erie adjoins the Ancho on the south and east and goes back to the contact.

The Erie which was discovered and prospected in the early days, was reopened in 1890 after a period of thirty years idleness and in 1900 a 20 stamp mill was erected. The property covers an area of 320 acres and has a length of 4500 feet along the lode and comprises the following claims; Canton Cascaret and Cascaret millsite, Dandarine, Dublin Bay, Erie and Erie millsite, Holland, Holland No. 2, and Holland millsite, Irish Boy and Irish Boy millsite, Lane, McCarthy, Neuralgaline, Oliver and Oliver millsite, Wheeling and Wheeling millsite.

Two veins have been developed the Erie and the Dublin Bay, the latter lying 1500 feet west of the Erie. Both of the veins occur in the Calaveras slates a mile west of their contact with the granite. The Erie and Dublin Bay veins belong to the Gaston system which has been so successfully worked at the Gaston. The Gaston vein, differs however, in that it occurs at the contact of the granite and the slates. The Erie vein which can only be traced at intervals on the surface, strikes north and dips 70°E., while the Dublin Bay vein, which has the same strike, dips 45°E. and can be traced for a distance of 5000 feet.

The orebodies in the veins occur in the form of lenses; in the Erie the main shoot was 400 feet in length, varying in width from 5 to 30 feet with an average width of 12 feet; the two shoots developed on the Dublin Bay lode are 70 and 100 feet in length, and have an average width of 12 to 15 feet. The ore carries less than one per cent of sulphides and are for the most part pyrite, with some galena and chalcopyrite.

The main working adit, which intersected the Dublin Bay vein 400 feet from the portal, was driven eastward as a crosscut a distance of 2,000 feet, where it encountered the Erie fissure. There are four levels above the adit level which is called No. 5, and 14,000 feet of drifting and exploratory work was done, 1600 feet of which was driven on the No. 5 level. The tonnage stoped is not known, but the mine is reported to the state mining bureau as having produced $500,000 to 1915 and ore above the 200 foot level is said to have averaged $8 per ton.

The Erie is equipped with a 12X12 two stage compressor of 500 cubic feet capacity and a twenty stamp mill, stamps being 1300 pounders. This equipment is in good shape at the present time.

The Yellow Tiger interests in acquiring the Erie has shown its faith in the future of the great east belt extending from Graniteville to Washington and beyond to the south and with an adequate power supply that section should hum with mining activity.

The papers on behalf of the Erie interests were signed by W. F. Burns as secretary of the California Erie Company. Gordon M. Bettles of Nevada City is secretary and manager of the Yellow Tiger and handled the negotiations on behalf of his company.

DUNAKIN AND SESTIN OPEN GOOD PROSPECT

Charles A. Dunakin and Steve Sestin, who have six claims on Coyote Creek two miles north of Downieville have uncovered two ledges of promising ore on their property. A forty foot drift has been run and a 48 foot winze sunk which shows encouraging values. The values are both free milling and in arsenical sulphides. One of the ledges shows a width in excess of three feet. The ledges are on the strike of the Alleghany lode. Both Dunakin and Sestin were in town Saturday and are seeking some capital to assist in developing the property. Here is a good opportunity to grub stake on an interest basis.

TURPENTINE INDUSTRY GETTING GOOD START

As soon as the weather moderates, the hanging of 35,000 cups for the formal commencement of the new turpentine industry will be well under way. A shipment of 5,000 cups was received the past few days and they are being distributed to the various tracts ready for hanging.

State Forester M. B. Pratt of Sacramento went over some of the tracts which have been prepared and he expressed himself as being highly pleased at the fire prevention work which had been accomplished so far. The ground around the trees to be tapped has all been cleaned of the needles and debris and the undergrowth cleared out.

The bark on the trees to be tapped has been thinned down to facilitate the working of the hack which is the tool used for making the notches. Bulletins have been issued by General Manager F. C. Ernst covering instructions to be followed by the workmen in tapping the trees.

Manager Ernst states that he is interested in buying tamarack gum and the sap from the balsam fir and will pay 10 cents a pound. He will still sign up timber tracts in any size. The early comers will get on the income producing basis much earlier than those who sit back to watch the procession go by. The new industry' will put many thousands of dollars to work in this community and the timber owners who have been enjoying no income from their property and have also been subject to loss by fire of much valuable wood in the past can well afford to get behind the new movement.

DOG DERBY WINNERS WERE HONORED HERE

Fred Printz, driver of the winning dog derby entrants at Truckee the first of the week and wearing the colors of Nevada county, was the guest of honor at a dinner given at the National Hotel last Thursday night. There was a large and enthusiastic throng present to greet the intrepid driver.

A. R. Archibald acted as toast moster for the occasion and handled his part to perfection. Numerous speeches were made. It was announced that although Nevada county's entrant had carried off the honors, our people were somewhat reluctant to show their apperciation in a tangible form and the sponsoring fund was about $350 shy. The Lion's Clubs of Nevada City and Grass Valley with their ladies were present.

One of the interesting speakers was Assemblyman Jerrold L. Seawell, who talked on sports. Jerry continues to improve on acquaintance with his winning ways. He was given a glad hand.

Mrs. Nellie Veale is home from a visit in Chico with her daughter, Mrs. Carl Ivey. Mrs. Ivey acompanied her mother home and remained for a short visit.

Mr. and Mrs. W. E. Glise of Spenceville were visitor here Tuesday to attend to business affairs.

Dan Webter was a business visitor in Nevada City Thursday.

COZY CORNER CHAT

NEVADA COUNTY will receive splendid advertising value from the fact that the winning dog team from Idaho was sponsored by civic organizations of this county and bore our banner in the derby conducted at Truckee the past week by the citizens of that enterprising community. The meeting and banquet tendered Messrs. Printz and Stonebrake at the National Hotel Thursday night showed what enthusiasm can do for a community when once it breaks loose. Too many times it needs some such event to jar it into activity. If the pep displayed at that meeting could be transmitted into every day boosting for our wonderful resources, what it could accomplish. At the meeting for the annual election of ifficers of the local Chamber of Commerce held but two nights before there were but the faithful few a mere handful present, which is greatly to be regretted. The civic organization must be alert the year around in the community interest but too many of our citizens and business men think that a public occasion is all that is necessary to show that they are 100 per cent boosters. Of course nowadays with all there is to divert the attention, the officers of any organization must be striving to make the meetings so interesting that nobody wants to stay away. That is the secret of any successful body of men or women. A strong bond of interest should always exist between the home town newspaper and the boost bodies of a community if the best results are to be attained in forwarding the interests of any community.

INDICATIONS ARE STRONG that Southern California capital is rapidly becoming interested in the mineral resources of this section of the state. The advertising carried in the Los Angeles newspapers over the signature of this paper has given thi section some of the most effective advertising it has ever received in the minds of the investing public of that section of the state and daily inquiries are reaching this office regarding possible sources of investment. This office is not trying to conduct competition against the local licensed brokers who of course are directly interested in boosting the properties which are listed with them on a percentage basis. It is but natural that they will boost their own properties in which they are driectly interested. This paper is interested in every property in this district which possesses any merit, whether it is listed with one of the brokers or not and it will gladly cooperate with any of them at any timee in interesting capital. We know that if capital can be induced to invest here that the paper will benefit from the increased business that will be created for the merchants of this city. The many compliments that have been showered on our efforts from widely scattered points is an indication that our work to put gold mining on the map again is meeting with success and is being recognized. One of the large Chambers of Commerce of California has written this paper that our efforts in behalf of mining has increased its effectiveness in disseminating mining information to the point that The Nugget is an indispensable part of its source of news to be given out.

AAW

TYLER JOTTINGS

CHEROKEE, Feb. 16, (Special to The Nugget)—K. Lewis and wife were visitors here Sunday evening.

H. Meyer of Cherokee has gone to Oakland on business.

W. Maitland and sisters, Mrs. Fleming and Mrs. Peterson and Mrs. Fleming's daughter and husband were up from Lincoln Sunday to see R. Maitland of Shady Creek.

Mr. and Mrs. R. McNamara of Cherokee were visitors in French Corral Sunday.

Mrs. James Phelan, Mrs. T. J. Flynn and Mrs. K. J. Phelan were business visitors in San Juan Monday.

Mr. and Mrs. R. Maitland, Thomas Phelan and James Phelan were county seat visitors Monday.

Mr. and Mrs. L. Day and daughter, Virginia, of the Salmon mine were visiting in Nevada City Monday.

H. Meyer and Jordan Anderson were business visitors in Nevada City Saturday.

Mr. Jepsen of Mountzuma Hill was a visitor here Thursday.

A Valentine party was given by the teacher of Cherokee school, all the children received a number of nice Valentines. Sandwiches, cake and lemonade were served by the teacher.

Mrs. May Campbell of Columbia Hill was visiting friends in Cherokee Thursday.

M. Wisler and mother of Cherokee have gone to Lincoln to visit Mrs. Wisler's daughters.

William Litchenberger of the Brush Creek mine was a business visitor here Friday.

George Stonebraker, owner of the Irish setter that won the Dog Derby at Truckee, departed for his home in Lewiston, Idaho, after visiting here with former friends and attending an entertanimnt in his honor.

W. H. Dunlap, who was seriously injured in a fall some time ago, is still critically ill.

Ben F. Ballard one of the principal owners of the Brush Creek mine, came up from Santa Rosa to look over his interests.

Mr. and Mrs. E. J. N. Ott, Sr., have as visitors, Mrs. E. J. N. Ott, Jr., and little son of Rio Linda.

Pete Bachels was a Saturday visitor from Goodyears Bar.

Miss Beatrice Ott, University of Nevada student, spent the week end here visiting her parents, Mr. and Mrs. E. J. N. Ott.

EDITORIAL

E. R. Freeman, the custodian of Redwood National Park, visited the Nevada City high school Tuesday and gave a talk on the redwoods of California and the conservation of forests. He told the student body all about the redwood and their importance to the state. He illustrated his talk with pictures.

He showed us the largest and oldest redwood trees in the world which are found both in the Sierra and Coast ranges. There were "freaky trees" such as the tunnel tree in Mariposa and a tree about 2,500 years old growing over a fallen tree about 2,000 years old, and trees that had sprouted out of a fallen monarch.

Among other pictures were the pictures of forest fires sweeping through well forested territory. He told us that a great annual loss was incurred by these forest fires and showed us that it was an unneccessary evil. After these fires have swept through the forests there will not be another such well forested area for over fifty years, as it takes grow. There are fires started by natural causes such as lightning, but many of them are started by careless campers and smokers.

Mr. Freeman's talk was interesting and educational and was of great value to the students, who enjoyed it very much.

BLOCK LETTERS FOR TEAM

Seven players of the "A" squad: Ernest Brisebill, Lorenzo Cicogni, Harry Evans, Thomas Hogan, Holden Pierce, Elbridge Skeahan, Lloyd White; nine players of the "B" squad: Bob Begel, Edgar Davey, Caswell Fisher, Ike Hoskins ,Carl Hieronimous, Addison Janes, Bill James, Harrison Randall, Joseph Sbaffi; and nine players of the "C" squad: Carl Baker, James Davis, Verne Gleason, Francis Hussy, Donald Macari, Vernon Sandow, Buddy Roberts, Bill Tamblyn, Thomas Wasley, will receive letters for this basketball season.

The "A" and "B" squads will receive the full size block letters, while the "C" squad will receive smaller letters.

FUTURE GAMES

Although the basketball season is almost ended several more games are scheduled. A return game for both the "A' a'nd "B" squads will be played Tuesday evning, February 19 at Wheatland. The "B" squad will play against Elk Grove some time in the future. The "B" squad has already won its county championship games and if a victory is recorded from Elk Grove there will be a big treat for them. These games will probably be the last games of the season.

CIVICS CLASS ORDERS FLAG

At the beginning of the school term the civics class organized a club called "The Young Citizens' Club". To show its spirit the club has purchased a flag for the school ground. The flag was bought with money obtained from a candy sale held at the basket ball game Friday February 8. The flag will be presented to the school on Friday, February 22. A short program will also be given by members of the club

GIVE PARTY

The Honor Society party which was to have been held to welcome the new members to the society was postponed because the Grass Valley Honor Society could not be present on that day. It will be held next Wednesday evening.

Mr. Peders n—"What is steel wool?"

Buddy Roberts—"The fleece of a hydraulic ram".

A canoe is like a small boy. They both behave better when they are paddled from the rear.

Miriam to Marie—"I wonder if we will have to "Skeahan" (scan) 'The Ancient Mariner'".

SPANISH CLUB

Last Monday, February 11, pupils of the Spanish II Class, under the supervision of Miss Whelan formed a Spanish club. After learning a few Spanish statements necessary to hold an election, they elected the following officers; Senor Janes, presidente; Senor Polglase, vice-presidente; Senorita Foley, secretario, and Senorita Genasci, tesesero. The first business of the club was to form a constitution to be approved by the club at the next meeting. The following were chosen as a committee to write the constitution: Senorita Jones, chairman, Senoritas Dorothy Watters, Gertrude Marriott, Cecelia Genasci, and Senor Jeffrey. The club was formed so that pupils who have already taken two years of Spanish may become members of the club also.

SOPHOMORE MEETING

At 3:20 o'clock Tuesday, February 12, the sophomore class held a meeting in Miss Taylor's room. At this meeting preliminary plans for the party were made. The class president, Buddy Roberts, appointed the following members to serve on the arrangement committee: Cecelia Genasci, chairman, Carl Murchie, Lois Eden, Gertrude Marriott, and Ruth Smith. No definite plans will be made until more pupils pay their student body dues. It is necessary to have eighty per cent of the dues paid before they can have the party.

Come on Sophs! Pay your dues! We want a party!

QUILL STAFF MEETING

A special meeting of the "Quill" staff was held at 3:30 o'clock, Monday, February 11, in Miss Hoffman's room to assemble the material and to discuss plans for the arrangements of this material in the annual. Some of the art work is ready to be sent to the engravers, and many of the articles are ready for the printer. The staff hopes to get the annual completed much earlier and with much less trouble than in previous years.

CAMP FIRE MEETING

Tuesday, February 12, the Sishewa group of Camp Fire Girls met at the grammar school, to make plans for their coming party. The definite date has not yet been set. From the grammar school they wnt to the Methodist church where the remainder of the evening was spent in practiceing songs.

CAMPTONVILLE JOTTINGS

Mr. and Mrs. William O. Grant returned Sunday from a week's visit in Sacramento.

Edward Lang left Monday evening for a short visit in Sacramento.

Mr. and Mrs. Hudleson left Monday for Glendale after a short visit at the Halkyard mine.

John G. Ramm was in town Monday.

William Hoeff came in from Indian Valley Monday and went to Dobbins Tuesday.

Dick Ponta of Downieville, passed through town Monday enroute to his home from Nevada City.

James Joubert of Oak Valley was in town Wednesday visiting his sweetheart.

R. J. Post arrived Sunday to take charge of the Indian Valley fish hatchery, relieving Louie Phillips, who has been in charge since construction.

Ed Whitburn of Grass Valley was a business visitor in town Thursday.

F. W. Camp, uperintendent at Indian Hill mine left Wednesday for the lower country on a short visit.

L. P. Lance of Downieville was in town Wednesday on a short business visit.

C. H.Greene of Grass Valley was in town Wednesday.

Mrs. Antone Zerga and daughter, Eva, of Oak Valley spent Wednesday visiting in town.

Peter Peterson who has been at the Oak Valley saw mill for the past few weeks returned to town Wednesday.

H. J. Wright of Nevada City was in town on a short visit Wednesday.

Superviosr George Campbell, of Pike City, returned Monday from a business visit in Downieville.

Leonard L. Bishop and Esmond J. Humphrey motored to Downieville Tuesday on a short visit.

Mrs. J. H. Noland passed through town Tuesday from Grass Valley enroute to Downieville on a short visit to relatives there.

Among those attending the Dog Derby at Truckee were: Traffic Captain J. E. Blake, Mr. Crispin, Ray Sparnon, and A. R. Archibald.

ROMANCE OF GOLD IS A STORY GREAT INTEREST

When T. A. Ricard, widely known mining engineer of Berkeley, announced in the University of California Chronicle a few days ago that contrary to popular belief, James Marshall was not the first discoverer of gold in California, he was only reiterating facts that already are known in Superior California.

There is record of several instances in which gold was observed and discussed in this state before the menial carpenter in the employ of Captain John Sutter took a nugget out of the American River enar Coloma and made himself a famous figure of California history.

But these previous "discoveries" did not become generally known either because the secret was jealously guarded and later lost, or the "strikes" were not of sufficient importance to attract more than passing local attention.

In his article, Ricard states that the existence of gold in California was known as early as 1816, when a Scotchman publshed a book in Edinburgh in which he made the asstertion that "on the coast of California there is a plain fourteen leagues in extent, covered with alluvial deposits, in which lumps of gold are dispersed".

Subsequently, in 1843, relates Ricard, a Mexican herdsman named Francisco Lopez found gold near what is now Los Angeles while digging for onions.

But documents in the California State Library cheat Lopez out of any glory for having been the first discovered of the perscious metal in thi sstate, as there is record of gold having been removed from California soil as early as 1841. And give Los Angeles eredit for it, too, as this discovery is said to have been made twenty miles northwest of what is now the city of San Fernando.

Furthermore, Marshall was possibly not the first ,even, to pan gold out of the American river, and there is evidence of an important find on the Bear river prior to 1848.

But it was Marshall's "strike" which was the second "shot" to be heard around the world and attracted the first thousands of immigrants to the Golden State. And there is none who would begrudge him any such honor as now is his.

The personal papers of John Bidwell, famous California pioneer and one of the most illustrious of Chico's early residents, give most of the data of these early gold discoveries. Referring to the first authentic "discovery", Bidwell writes:

"It is not generally known that in 1841—the year I reached California—gold was discovered in what is now a part of Los Angeles county. The yield was not rich; indeed. it was so small that it made no stir.

"The discoverer was an old Canadian Frenchman by the name of Baptiste Ruelle, who had been a trapper with the Hudson Bay Company.

"The mines discovered by Ruelle in California attracted a few New Mexicans, by whom they were worked for several years. But as they proved too poor, Ruelle himself came up into the Sacramento Valley, 500 miles away, and engaged to work for Sutter when I was in Sutter's service".

It was Ruelle ,also, who claims to have been the first person to discover gold in the American river. That was in 1843—still a year before the purported discovery by Lopez. But little credence is attached to Ruelle's claims by Bidwell, who relates the episode in the following manner:

"Ruelle had been in Sutter's employ for several months when one day he came to Sutter and showed him a few particles of gold, and said he found them in the American river, and he wanted to go far into the mountains on that stream to prospect. For this purpose he desired two mules loaded with provisions and he selected two notably stupid Indian boys to go with him, saying he would have no others. Of course he did not get the outfil.

"Sutter and I talked about it, and our conclusion was that he really wanted 'th eoutfit so he could join a party and go to Oregon and remain. Such, I believe, was Ruelle's intention though, in 1848, after Marshall had discovered gold at Coloma, Ruelle, who was one of the first to go there to mine, still protested that he had discovered gold on th eAmerican river in 1843".

Another discovery claim to which Bidwell does, however, attach the greatest plausibility, was made in the Spring of 1844 by a Mexican laborer. His name was Pablo Guitterez, who at that time was working for Bidwell as a farm hand.

Pablo asserted that he made the find on the Bear river while he was A. W. O. L. for two weeks. He prevailed upon Bidwell to accompany him into the Sierra, but before they could reach the spot where Pablo claimed his discovery, the Mexican refused to go further without a "batea," which was a sort of wooden bowl for washing gold.

They returned to Sutter's Fort for a "batea". However, before they could once more venture forth upon a prospecting journey, a revolt broke out, and, it later developed, this revolt was to end the adventures of Bidwell and Guitterrez as partners in search of gold.

During the course of the insurrection, Guitterrez was selected by Sutter to bear a message to the Mexican governor of California, then established at Monterey, informing the governor that Sutter was mobilizing a force to come to his assistance .But the luckless Pablo was taken prisoner at San Jose and hanged.

"Otherwise", remarks Bidwell, "Pablo Guiterrez might have been the discoverer instead of Marshall".

Not until 1846 did Bidwell have a chance to investigate Pablo's story of gold existing in the Sierra. While working on a sawmill forty miles south of Coloma, he launched a private prospecting journey.

"The day was one of the hottest I had ever experienced", he remarks. "I even attempted to descend into a deep gorge through which meandered a small stream, but I gave it up on account of the brush and heat".

And if he had descended into that gorge—

After Marshall's discovery, Bidwell was discussing the fact with another miner that two years before he had tried to drop into the ravine.

"My stars!" the prospector exclaimed to Bidwell, "Why, that gulch down there was one of the richest places that have been found in this country. One man took out a pint of nuggets before breakfast!" (Bee)

Mrs. George Trezise and daughter, Miss Fern, are visiting in Berkeley. Miss Trezise will visit relatives in Beverley Hills before returning home.

Mr. and Mrs. Andrew McCabe have as visitors, Mrs. Thoma sHall and children, Junior and Jean, of Marysville. Mr. Hall motored up with them returning the same day.

W. P. Clerkin of French Corral was a visitor here Thursday.

TWENTY GOLD MINES EL DORADO COUNTY

Facts and figures indicating that El Dorado county is on the brink of a huge mining revival in which it will lead in the future development of mines and mining in the Mother Lode region have been compiled by the El Dorado County Chamber of Commerce in a report which lists 33 gold properties, either operating or in course of development, in addition to the known extensive workings in the non-metallics.

The report acknowledges that plans are being made to re-open the old Union Mine with its 40 stamp mill, between El Dorado and Nashville. The Busick mine, in the same vicinity is working.

The Argonaut mine, near Greenwood, is operating a 100-ton mill. Sciaroni brothers are installing a ten-stamp mill at their mine in the Baltic region. J. H. Christensen is opening up the old Fnik mine in Pleasant Valley. Wallace Thorsen is opening up property in Pleasant Valley. Machinery is being installed at the old Carpenter mine, near Fort Jim.

Twenty-five stamps are working at the old Sliger mnie. A new ten-stamp mill is being erected for the Harmon group. Jerome E. Miller is doing considerable work on his group.

James Cogswell was a busness visitor in San Francisco during the week.

It's The Reserve
That Counts

In all the games of life, the victories go to those who have something in reserve. In muscular activities, it is the man who has the most stored energy upon which he can draw, that determines who will win. In war the armies with the greatest reserves, usually hold the balance of power. This holds true in matters of business as well. A well fortified reserve is a big aset for any business or for any man.

A savings acocunt is the best method of buliding up a reserve that will prove worth all the sacrifice it may cost. No one can tell when he may need it. The wisest policy is to start saving and build up to the day when the reserve will determine some important turning point in your life.

BOWLING RACE TIGHTENS UP IN ELKS LEAGUE

The past week saw the race for supremacy in the Elks bowling tournament gratly sewed up with five teams in the running. The Dave Richards wielded the cleaver on their opponents and jumped from next to the cellar to second place by dint of taking four points. The Celios by some heavy shooting took three points from the fast coming Nickless outfit and continue in first place by a bargain of three points. The Kopps and Scheemers divided two each while the Goynes dropped another four.

The Celios took high pin total for the week by a wide margin, shooting 2228 which is considered good work in any league. Individual honors for the week went to Mobley who came out of his batting slump long enough to put down two of the double centuries but his second game held his total down to 560 pins which gives him third place for high pin total for the season. His work in the opener was sensational and showed some of his arly season form when he was holding top rank by a good margin. Fouyer staged a fine series for the week with a 165 average. He had his ball undr good control and the pins simply fell over when they saw it coming down the groove. Celio pulled off some fancy stuff in his opener with 171 and had the gallery birds in an uproar. Bigelow jumped into third place in the individual standings by some good work. Tamblyn goes into fourth place. Bill rolls one of the prettiest balls on the alleys but it hasn't been getting the pins this year as it ought to.

Bowler who raise their averages during the week were Bigelow, Tamblyn, Percy Carr, Mobley, Leiter, Penrose, Walling, Lobdell, Ghidotti, Celio and Tom Richards. Percy Carr drew down second high total for the week with two fine games but his opener pulled his total down. vwkYs honors c

GRASS VALLEY PERSONALS

Mr. and Mrs. T. J. Edwards have returned to their home in Berkeley after a visit here with his parents, Mr. and Mrs. T. J. Edwards, Sr.

Mrs. Clara Plank had as visitors, Miss Orel Crispin and her uncle, Charles Bendorff, of San Francisco.

Mrs. A. W. Storz and son, Donald, spent the past week visiting in San Francisco.

Chicago Park orchardists who were, J. D. Rolfe, Carl Merkle, and Fred Bierwagen.

Gordon Ingram of Sacramento spent last week end here visiting relatives.

Mr. and Mrs. Fern Green are home from their honeymoon trip to Oakland. They will make their future home in Grass Valley.

John Bunny of San Francisco attended the funeral of the late Martin Sampson.

Mrs. D. D. Johnson returned Tuesday from a visit with her daughter, Miss Ellen, in San Francisco.

Mr. and Mrs. E. H. Armstrong have had as a visitor his brother, W. L. Armstrong of Tuolumne, Tuolumne county.

Jack Southerland, Fred Fossa, Peter Crissman, and John Looser were business visitors in Sacramento Tuesday.

H. E. Wilson of You Bet was a visitor in Grass Valley Tuesday.

John Bach of Smartsville was a visitor in Grass Valley Monday.

Mr. and Mrs. W. D. Paynter and Ed Tierney spent several days in Sacramento.

T. W. Blight of Susanville was called here by the serious illness of his mother, Mrs. Samuel Blight.

N. C. N. G. R. R. COMPANY TIME TABLE AND RATES

Effective Sunday, Sept. 25, 1927

Train leaves Nevada City at 5: a. m., Grass Valley at 5:50 a. m. arriving San Francisco, 1:30 p. m.

Nevada City to Sacramento and return, sold every day, limit 14 days, $4.50; from Grass Valley, $4.00.

HERE IS OLD PLAN TO RECOVER GOLD IN PLACE

(By Kirby Thomas)

The recent successful and unsuccessful attempts to recover copper by leaching in place in some of the western mines, and the renewal of interest in the buried channel and other placer operations in California, suggests a public record which was brought to my attention some time ago in another connection. In 1895 application for Letters Patent was made at the Washington office by the late Herman Frasch, covering the recovery of gold and other metals with mining. The patent issued in 1896 sets forth:

"This invention relates more particularly to the recovery of gold from placer deposits which either contain gold in too small quantity for working by the methods heretofore known or used, or which from lack of water or peculiarity of location are not workable, at least profitably, by said prior methods. It may, however, be applied to the recovery of gold from other porous or permeable deposits and to the recovery from such deposits of analogous metal, (silver or platinum, for example)".

The plan is further elaborated as follows:

"The reagent employed may be any known or suitable substance or combination of substances for forming soluble compounds with gold or like metal, such as chlorin and bromide for gold, the alkaline hyposulfites for silver ,and potassium cyanide for gold or silver, or both. Chlorin may be advantageously used for platinum. This is often present with gold and can be mined with it by means of chlorin. These are given as illustrations. Other reagents may be used. In using a combination of substances they may be used in admixture or in succession. An example of the successive use of substances would be the formation of silver chlorid by the introduction of chlorin and the making of this silver chlorid soluble in water by means of sodium hyposulfite".

In case the deposits are flooded with water, it is proposed to displace the water by a solution of a suitable higher gravity—"a convenient substance being common salt". Concerning the solvent applicable to this method, the invention makes this interesting suggestion:

"Assuming that gold is to be recovered, the reagent may be chlorin. This can be conveniently prepared in solution by dissolving chlorid of lime (bleaching-powder) in water and adding enough sulfuric acid to liberate the chlorin. The use of about four pounds of the chlorid of lime to a ton of water is recommended. The solution can be used at once, or be first allowed to settle".

It is further suggested:

"The solution may remain in contact with the gold-carrying deposits for hours, days, weeks, months, or even years. Weak solutions may therefore be used, and the extraction can be continued until practical exhaustion of the gold. Any depth can be worked. As placer deposits do not ordinarily contain sulfids, nor other substances on which the chlorin would waste itself ,loss from this cause would usually not have to be taken into account. In some cases where organic matter exists a solution of cyanid of potassium can be used advantageously. Solutions of two-tenths of one per cent (or even one-tenth) will answer. In using chlorin for gold, if there be silver in the deposit, the chlorid of silver formed thereby could be recovered by means of hyposulfite solution. If there be platinum, it would be recovered with the gold by the chlorin".

The patent claims are broad and varied and were apparently taken very seriously by the inventor at the time. They emphasize the possibility of recovering the "gold, platinum and silver" content of the deposits.

Several diagrams show the physical application of the method to various types of placer deposits.

The patentee, Mr. Herman Frasch, invented, developed and applied the method of sulphur mining by means of melting with superheated water, now in use in the important "dome" sulphur deposits of the Gulf Coast region. His experiences and standing give interest to his metallurgical expectatons, especially at this time when the long deferred to recover copper "in place" is materialized.

In this connection the suggestion of a British scientist that coal mght be effectively utilized by combustion in the ground, saving the volstile gas and the oil for energy puposes, is also of interest. It may be noted too that the attempt in Australia to recover the oil from shale by ignition "in place" was not a success commercially for reasons not clearly reported in the available records.

According to the tenth report of the State Mineralogist of California, there are in Placer county, California, along over 200 miles of auriferous gravel that has never been prospected and those that have been worked have produced from $500,000 to $15,000,000 to the mile of channel. Nevada county has three times as much channels as Placer county and Plumas and Sierra nearly as much as Placer and El Dorado, Amador and Calaveras about half as much as Placer: In 1908 a crew of Chinese took out $358,600 from a small spot at You Bet and nearly as much the year before: At Forest Hill as much as $850,000 to $1,200,000 was recovered from 100 feet length of the drift channels.

With these alluring figures as an objective it would seems that some present-day Jason might be tempted to make a trial of Mr. Frasch's interesting plan and to this arrive at a solution of the dead lock in California gravel operations which has continued since the valley farmers got the upper hand in the legislature and in the courts in 1884. Of course some means of neutralizing the solvent solution will have to be applied but this should not be difficult.

The idea is commended to the Commonwealth Club of California which during the year past has been holding a continued symposium on the subject "Hydraulic Miners vs. Valley Farmers".

GRASS VALLEY PERSONALS

Robert Lucas, an employe at the Empire mine, suffered a stroke of apoplexy the past week, which proved fatal.

Mr. and Mrs. William Southern spent their honeymoon in Oakland. They will make their home in Grass Valley.

Traffic Captain J. E. Blake, Game Warden Earl Hiscox, and Lawrence Woods were Sacramento visitors Tuesday.

E. C. Klinker, of the California Premier mine near Colfax, was in Grass Valley over the week end.

Miss Constance Quick, Sacramento Junior College student, spent a few days here visiting relatives.

Mrs. Nellie Ricard had as guests over the week end, Mr. and Mrs. B. F. Voss and son of Oakland and Eldon Martanini of San Francisco.

Misses Reba and Bernice Argall and Miss Ida Hopp motored to Sacramento recently.

Mrs. William Davey is visiting in Oakland.

Mrs. W. J. Bennett was called from Sacramento by the serious illness of her father, J. J. Tierney.

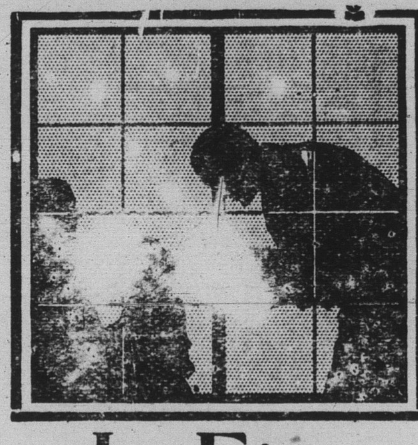
Acidity

The common cause of digestive difficulties is excess acid. Soda cannot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians tell the public to use Phillips Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts instantly; relief is quick, and very apparent. All gas is dispelled; all sourness is soon gone; the whole system is sweetened. Do try this perfect anti-acid, and remember it is just as good for children, too, and pleasant for them to take.

Any drugstore has the genuine, prescriptional product.

PHILLIPS Milk of Magnesia



In Five MILLION HOMES TONIGHT

There are times when all a mother's love can't soothe a fretful baby. No way of telling just what's wrong, yet something must be done. Castoria time! A few drops, and Baby has dropped off to sleep. Yet this marvelous means of quieting a restless infant is utterly harmless. There is not one ingredient but what all doctors know and approve, and would let you give your baby every day in the week. In fact Castoria is *a purely vegetable product.* Gas pains, constipation, even diarrhea can be dispelled in this same manner. Castoria is older than you are, but physicians still say "nothing better for babies." An old-fashioned remedy if you count its years, but parents are old-fashioned who still raise babies without its aid! And at least five million modern mothers keep it handy day and night, for twenty-five million bottles were bought last year! Buy yours now; don't wait until you need it.

Children Cry for Fletcher's CASTORIA

CLEAN CLOTHES FOR NEW YEAR

LEGAL NOTICE

SUMMONS

In the Superior Court of the State of California in and for the County of Nevada

T. C. BIGELOW, Plaintiff,
vs.
W. S. BIGELOW, and all persons unknown who have or claim any interest in or lien upon the real property hereinafter described, Defendants,

The People of the State of California send greetings to: W. S. BIGELOW, and all persons unknown who have or claim any interest in or lien upon that certain real property situate and being in the County of Nevada, State of California, and more particularly described as follows, to-wit:

All that portion of the East half of Section Thirty-six (36) Township Eighteen (18) north, Range Eight (8) East, M. D. B & M., described as follows, to wit:

Beginning at a point at North 31° 31' West 2575 feet from the South East corner of Section 36 Township 18 North, Range 8 East, M. D. M., thence true bearings, North 33° 45' East 385.44 feet; thence North 64° 00' East 283.80 feet to a 18 inch pine; thence North 46° 27' East 167.64 feet; thence North 33° 41' East 135.30 feet; thence North 3° 18' West 136.62 feet; thence North 58° 00' West 186 12 feet; thence South 84° 45' West 157.08 feet; thence North 4° 40' East 99.00 feet to a point; thence North 18° 00' East 818.40 feet; thence South 72° 00' East 665.94 feet; thence South 18° 00' West 2146.32 feet; thence North 69° 42' West 613.92 feet; thence North 264.00 feet to the place of beginning; excepting therefrom so much thereof as lies within the exterior boundary lines of Mineral Lot No. 40 known as the Lucky Joe Extension

Subject to that certain Right of Way reserved in deed executed by Wright Shaw to J. G. Hall, dated October 22, 1891, recorded February 10, 1892 in Book "78" of Deeds at page 337 et seq., Records of Nevada County.

You are hereby directed to appear and answer the complaint in the action entitled as above brought against you in the Superior Court of the State of California in and for the County of Nevada, within ten days after the service on you of this summons, if served within said county, or thirty days if served elsewhere, and you are hereby notified that unless you appear and answer as above required the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract or will apply to the court for any other relief demanded in the complaint, including the partition or sale of the real property hereinbefore described.

Given under my hand and the seal of the Superior Court at Nevada City, State of California, this 5th day of February, 1929.

WHAT DR. CALDWELL LEARNED IN 47 YEARS PRACTICE

A physician watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. It can not harm the system and is not habit forming. Syrup Pepsin is pleasant-tasting, and youngsters love it.

Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for anybody's system. In a practice of 47 years he never saw any reason for their use when Syrup Pepsin will empty the bowels just as promptly.

Do not let a day go by without a bowel movement. Do not sit and hope but go to the nearest druggist and get one of the generous bottles of Dr. Caldwell's Syrup Pepsin, or write "Syrup Pepsin," Dept. BB, Monticello, Illinois, for free trial bottle.

LEGAL NOTICE

State of California
Department of Public Works
Division of Water Rights
Sacramento
Application No. 5984

NOTICE OF APPLICATION TO APPROPRIATE WATER

NOTICE IS HEREBY GIVEN, That Bart Sweeney, Cf. J. F. O Connor, County Surveyor, Grass Valley, Calif., has under the date of July 17, 1928, applied to the Division of Water Rights, Department of Public Works, State of California, for a permit to appropriate **unappropriated** water, subject to existing rights.

Descripton of Project

Water to be appropriated from Logan Canyon, tributary to South Yuba River, County of Nevada.

Amount applied for: 10 cubic feet per second.

Diversion season named: Jan. 1 to Dec. 31 of each season.

Water to be used for mining purposes.

Point of diversion within NE¼ of NE¼ of Sec. 4, T. 17 N., R. 10 E., M. D. M.

Place of use described: within SE¼ of SE¼ of Sec. 4, T. 17 N., R. 10 E., M. D. M.

Water to be returned to Logan Canyon within SE¼ of SE¼ of said Sec. 4.

Relative to Protests

Blanks upon which to submit protests will be supplied free by the Division of Water Rights upon request.

Any person desiring to protest against the granting of such permit shall within 60 days from date hereof, file with the Division of Water Rights, Sacramento, California, a written protest. Such protest shall clearly set forth the protestant's objections to the granting of the application and shall contain the following information:

(1) Statement of the injury which would result from such appropriation and use.

(2) The basis of protestant's water right.

(3) Protestant's past and present use of water both as to amount used and land irrigated, or use made of water if other than irrigation.

(4) The approximate location of such land or place of use and of the point of diversion of th ewater.

A copy of the protest should be sent to the applicant and this office notified that the same has been done.

Dated: Sacramento, California, January 11, 1929.

HAROLD CONKLING,
Chief of Division of Water Rights.

First Publication, Jan. 21,1 929.

LEGAL NOTICE

SUMMONS
No. 5713

In the Superior Court of the State of California, in and for the County of Nevada.

ECHO M. GOODWIN and LULU GOODWIN, his wife, Plaintiffs,
—vs—
JOHN W. O'NEILL; A. A. CHARONNAT; I. C. LINDLEY, S. T. ALLEN; NEVADA IRRIGATION DISTRICT, a corporation, AND ALSO ALL OTHER PERSONS UNKNOWN CLAIMING ANY RIGHT, TITLE, ESTATE, LIEN OR INTEREST IN THE REAL PROPERTY DESCRIBED IN THE COMPLAINT ADVERSE TO PLAINTIFFS' OWNERSHIP OR ANY CLOUD UPON PLAINTIFFS' TITLE THERETO, Defendants.

Action brought in the Superior Court of the State of California, in and for the County of Nevada.

W. E. WRIGHT, Attorney for Plaintiff, Nevada City, California.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO: JOHN W. O'NEILL, A. A. CHARONNAT, I. C. LINDLEY, S. T. ALLEN, NEVADA IRRIGATION DISTRICT, a corporation; and also all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to Plaintiffs' ownership, or any cloud upon Plaintiffs' title thereto, Defedants.

You and each of you are hereby directed to appear and answer the Complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Nevada, within Ten (10) days after the service upon you of this summons, if served within this County, or within thirty (30) days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required the said Plaintiffs will take judgment against you for any money or damage demanded in the Complaint as arising upon contract or they will apply to the Court for any other relief demanded in the Complaint.

The said action is brought by the above named Plaintiffs against the above named defendants, and each of them, to quiet Plaintiffs' title to the land and real property described in the Complaint on file in said action and hereinafter particularly described, and to determine the adverse claims of the above named defendants, and each of them, and of all unknown persons to, and clouds upon the title to the said real property and the whole thereof pursuant to the provisions of Sections 749, 750 and 751 of the Code of Civil Procedure of California, and that said real property is situate, lying and being in the County of Nevada, State of California, and is particularly described as follows, to-wit:

All those certain lots, pieces or parcels of land situate, lying and being in the County of Nevada, State of California, and bounded and particularly described as follows, to-wit:

The North West quarter (NW ¼, the West half (W½) of the West half (W½) of North East quarter (NE¼); the North Half (N½) of South East Quarter (SE ¼) and the South West Quarter (SW¼) of South East quarter (SE¼) of Section Eleven (11), Township sixteen ([illegible]) North, Range 9 East, Mt. D. B. & M.

The object of said action is to obtain the judgment of the Court against said defendants and each one of them, known and unknown as follows:

That all adverse claims to, and all clouds upon the title of plaintiffs to said real property or any and every part thereof be determined by the judgment and decree of said court, and that it be decreed that plaintiffs are the sole owners in fee of said real property and the whole of said real property herein described, being the same real property described in the Complaint of Plaintiffs on file herein and that plaintiffs are in possession of the property and entitled to the possession of the said real property, and the whole thereof, and that the defendants have not, and that no one of said defendants, including the unknown persons made defendants herein, have any right, title, estate, lien or interest of any kind whatsoever, in or to or on the said real property or any part thereof, and that said defendants, and each and every one of them, known and unknown be forever debarred, enjoined and restrained from making or asserting any claim whatsoever in or to said real property, or any part thereof, adverse to plaintiffs, and that the title of said plaintiffs in and to said real property and the whole thereof be forever quieted and adjudged good and valid, and for such other and further additional order, judgment, decree and general relief as is meet and proper in the premises, and for costs of suit.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Nevada, this 14th day of January, A. D., 1929.

GEORGE COUGHLAN,
[SEAL] Clerk of said Superior Court.

of a Grocery Store? The qualtiy of the groceries that you purchase has a direct bearing on your health and happiness in general.

If you purchase groceries that are inferior, you are sure to feel th eeffect in reduced vitality.
The foods we sell are all fresh, reliable and santary. By trading here you can conserve your health as well as take advantage of our reasonable prices.

J. J. JACKSON

Phone Number One We Deliver

There is no standing still . . .

During the past two years 6000 switchboards have been reconstructed in the larger cities served by the Bell System to enable the operators to give a more direct and faster service.

Previously in towns where there were more than one central office, your operator would hold you on the line while she got the operator at the other central office on an auxiliary pair of wires. Now she connects directly with the other central office and repeats the number you want to the other operator. You hear her do this so that you can correct her if there is any mistake.

This little change cost millions of dollars. Likewise, it saves millions of minutes a day for the public and it has cut down the number of errors by a third.

It is one of the many improvements in methods and appliances which are constantly being introduced to give direct, high-speed telephone service. There is no standing still in the Bell System. Better and better telephone service at the lowest cost is the goal.

CHAMBER OF COMMERCE ELECTS SAME OFFICERS

The same officers will continue to guide the destinies of the Nevada City Chamber of Commerce for the coming year in the persons of R. J. Bennetts as president and W. H. Griffiths as secretary, as the result of the meeting held last week. The attendance of boosters was small but a great deal of constructive work was accomplished.

A substantial sum of money was voted from the treasury to help the San Juan Ridge Water Association which is badly in debt. The secretary announced that a round trip rate between Oakland and Lake Vera, of $5 has been made by the Southern Pacific effective for the summer months. With the various meetings scheduled for Lake Vera this will greatly stimulate travel to Nevada City's recreation enterprise. The annual old fashioned dance will be held on the Saturday night following Easter Sunday and committees will be announced shortly. On suggestion of The Nugget publisher a telegram will be dispatched to President Hoover on the day of his inauguration, on behalf of the Chamber. W. A. Doctor spoke of the benefit of having a live chamber of commerce, in a community and how his organization would be always glad to support the movement. Henry C. Schroeder told of the coming meeting of the county assessors in Nevada City today.

PENROSES GROCERY WILL FEATURE NEW KIND FISH

Next Thursday and Friday, the Penrose Grocery will featur a new table delicacy, a fresh fish which has had the odor removed, filet of haddock. It is said to b delicious. Coms in a sanitary envelope. Recipe books will be given free to all who call.

Henry Damon of Relief Hill is here visiting with former friends.

Miss Margaret Coughlan of North Columbia was in Nevada City Thursday.

Mrs. J. E. Wylie of Forest came in on the Citizens Auto Stage Thursday.

Ray McCauley of Milan, Oregon, is here on a short business trip.

Mr. and Mrs. Clarence S. Shurtleff had as visitors over the week end, Mr. and Mrs. Clyde Shurtleff and son and daughter.

GRAND OPERA AT SACRAMENTO MARCH 13.

Three of the foremost stars of the Chicago Grand Opera Company will have principal roles in the presentation of Thais, to be offered at the memorial auditorium in Sacramento on the evening of March 13th.

These are Mary Garden, America's greatest prima donna; Cesare Formichi, the great Italian baritone, and Jose Mojica, outstanding Mexican tenor.

The ability and artistry of Miss Garden needs no reiteration, for they are known wherever opera is known, both in America and abroad.

Formichi sang the role of Simonson, the political prisoner, in the opera Resurrection, presented in Sacramento by the Chicago company last season, and he was accorded a great ovation. Many who heard this performance felt a desire to hear more of Formichi's resounding baritone voice than the role in Resurrection allowed him. His reception has been tumultuous upon his every appearance this season.

A young star is Majica, who became an opera singer when a Mexican revolution turned him from agriculture. He has been with the Chicago company nine seasons, following his "discovery" in Mexico by officials of the company.

In addition to these three other stars, including Antonio Nicholich, Ada Paggi, Lucille Meusel and Maria Claessens will be heard.

Traveling in a special train of two sections the company will come to Sacramento in its entirety, bringing the full chorus, ballet and the orchestra of more than fifty pieces, which will be conducted by Roberto Moranzoni, one of opera's outstanding conductors.

But one performance will be given, mail orders for which now are being received by The Sacramento Bee, which is sponsoring the appearance here in the interest of advancement along musical lines in the Sacramento Valley. Should any profit accure it will be used for a similar purpose.

The price schedule is as follows: First ten rows, lower floor, $6; rest of lower floor, $5; dress circle, front $5; dress circle, rear, $4; first balcony, $5; entire second balcony, $3. There is no tax.
